WANT TO LEARN HOW TO LEVERAGE AI TO ACCELERATE YOUR DELIVERY OF WORK?

Today's teams use all the tools available to them to respond quickly, adapt to changing needs and deliver value for their organizations and customers. Staying current, leading the pack and maximizing returns today means leveraging Artificial Intelligence (AI) tools in the workplace and partnering people with technology to accelerate work. Our accelerated Delivery using AI course explores what's involved in adopting AI into your daily work. Aligned with modern agile principles, you'll gain insights into how AI can augment your delivery processes, enhance decision-making, and drive innovation. This includes understanding AI concepts, ethical considerations, prompt engineering techniques, and practical applications of AI in team environments. You'll acquire the skills needed to effectively implement AI-enhanced delivery methods, ensuring your organization stays at the forefront of technological advancements while focusing on value delivery and ethical considerations.

Certifications

The ICAgile Certified Professional – Foundations of AI (ICP- FAI) certification is granted on the successful completion of this course.

This course will contribute 14 PMI® Professional Development Units (PDUs) towards your chosen certification (1 Power Skills, 1 Business Acumen and 12 Ways of Working).

Learning Outcome

During this course, you will learn about:

- The impact of AI on modern ways of working and its potential to accelerate delivery
- Ethical challenges in AI implementation and how to address them
- Prompt engineering techniques for effective interaction with AI tools
- Practices and behaviour of Integrating AI into team structures and the value lifecycle
- How to design an ethical framework for AI adoption
