## HOW DO WE ENSURE THAT THE RIGHT PRODUCT IS BUILT IN THE RIGHT WAY TO MOST EFFECTIVELY SOLVE THE RIGHT BUSINESS PROBLEM?

Agile delivery teams need an empowered Product Owner that has a clarity of vision, alignment with organizational strategy, an understanding of the development process and the ability to communicate with a wide variety of stakeholders.

Our Agile Product Ownership course will provide you with the techniques and tools to become an effective Product Owner equipped to guide product development and lead value delivery teams. This course focuses on how to deliver business value and ensure product fit demonstrating practices that work in an agile development process.

You will leave with the required tools and approaches that will enable collaboration with teams and stakeholders to identify the most important aspects and features of a product or initiative.

## Certification

The ICAgile Certified Professional – Agile Product Ownership (ICP- APO) certification is granted on the successful completion of this course. This certification is part of the ICAgile Product Management Track along with our Product Management course.

This course will contribute 14 PMI® professional development units (PDUs) towards your chosen certification (4 Power Skills and 10 Ways of Working).

Lecturing is kept to the minimum necessary where most of the learning is achieved by applying the practices and techniques in group exercises. Our LiveOnline delivery is over three days (each four and a half hours in duration). The instructor is 100% live and interaction and learning objectives are the same as our in-person classes with the added benefit of being able to take this course from your home, your office or your home office. Since this class is delivered over half-days it allows for greater flexibility and leaves you with time each day for other work or activities.
