Want to know what agile is all about? If you're new to the agile world and need a solid introduction to the agile way of thinking and doing – our Agile Fundamentals course is a perfect fit.

Ideal for both business and technical teams, this course examines the roles and responsibilities of team members working in an agile way. It delves into the specific practices used in agile projects, explains the theory and concepts behind the agile approach, and prepares you to work confidently and effectively in an agile environment. Not only that, you will also learn about the structure for defining value to ensure you and your team work on the right product at the right time for the right customer. This is one of our most popular agile course for individuals, teams, and organizations seeking introductory agile training.

Certification:

ICAgile accredited course: Successful completion of this course will enable you to become a 'Certified ICAgile Professional'.

Learning Outcomes:

By the end of the course you will be able to understand:

- The background of participating in an agile workplace
- The roles and responsibilities of a typical agile team
- The various tools available to agile teams to facilitate conversation about priorities
- How agile teams cooperate and collaborate to deliver business value
- The important interpersonal skills agile environments encourage and foster
- How discipline and standards contribute to agility
